

NASA Space Science Center for Education and Outreach
DePaul University

Space Science Symposium

Please join us for our fifth annual symposium
about astronomy and its use throughout the curriculum.

When: Saturday, September 27, 2003
8:30 am (Registration) until 2:30 pm

Where: Schmitt Academic Center (SAC)
At DePaul University's Lincoln Park Campus

WHAT YOU CAN EXPECT

- Plenary sessions with a NASA historian and a Mars scientist
- Plenary session on Mars in the classroom
- Exciting Break-out sessions include: Mars Student Imaging, using WebQuests in your classrooms, guiding student research projects, ways to connect literature to space science, and information about the NASA mission SOFIA.
- Free materials from NASA Jet Propulsion Lab, The Space Telescope Science Institute, and NASA's Goddard Space Flight Center
- Complimentary breakfast and lunch

No Registration Fee!

Directions and further information will be provided
when we receive your registration.

To register please return the enclosed form by September 22
